Carl Standertskjold- Nordenstam

Head of Marketing at Inbolt

Paris, Île-de-France, France

Summary

Growth-focused B2B tech marketing leader | Head of Marketing & Communications at Inbolt

At Inbolt, I lead the full-stack marketing engine—from brand to demand. My mission is to amplify our voice in the market, emphasising the market-leading impact of our 3D Vision and AI solution for industrial robotics, and drive targeted pipeline growth.

With a background in high-performance marketing roles, I bring a creative-meets-analytical mindset to every campaign. I've built marketing programs that generate revenue, elevate brand equity, and turn prospects into advocates leveraging product storytelling, partner ecosystems, multi-channel demand strategies and more.

Previously helped co-create Sony's TEOS Workplace Solutions, leading marketing efforts that brought in global clients like Coca-Cola, LEGO, and Capgemini. At Algolia, I managed field and partner marketing across EMEA and SEA, shaping go-to-market strategies that delivered major incremental pipeline growth year over year.

Areas I thrive in: B2B Demand Gen | Product Marketing | Brand Strategy | ABM | Partner Marketing | Field & Event Marketing | Content Strategy | Marketing Ops

Fun fact: I designed and launched a board game called Bachelor Blast Off which was 'Amazon's Choice' for a year straight!

Experience

Inbolt

Head of Marketing

April 2025 - Present (1 year 1 month)

Paris, Île-de-France, France

Algolia

Senior Field & Partner Marketing Manager

July 2021 - March 2025 (3 years 9 months)
